MEMORANDUM

TO: Division Engineers

FROM: T. M. Little, P.E.   
Chief Engineer

SUBJECT: Time Extensions Due to Weather in 2018 – Supplement to January 29, 2019  
Memorandum

As noted in my January 29, 2019 memorandum regarding Time Extensions Due to Weather in 2018, an administrative decision has been made to allow consideration for weather related time extensions beyond that contemplated in the Standard Specifications. In addition to the conditions detailed in the January 29, 2019 memorandum, a 180-day time extension should be granted to the overall contract time and Intermediate Contract Time (ICT) related to substantial completion for all work except reforestation or vegetation establishment. These extensions apply to all highway related projects that meet the following criteria:

- Letting date during 2018,
- Overall contract completion date is between September 1, 2018 and June 30, 2019, and
- The overall contract calendar days is 180 days or more.

This extension of contract time is in addition to time extensions previously granted for Hurricane Florence or those granted through the Standard Specifications under Article 108-10.

Please use the Department Initiated Claim process to grant these time extensions. If the project has been accepted and completed by the contract completion date, then no action is needed. Attached is a list of projects that meet the above criteria. Questions should be directed to Lamar Sylvester in the Construction Unit at (919)707-2400.
